# UPWIND SAILING

In 2008, Andreas Rieser founded Upwind Sailing as a platform for sailing cruises and events on and around Lake Zürich. The basic idea – making the experience of sailing available to a broader public – is still the core of the company’s philosophy.

Having continuously expanded the range of events offered, Upwind Sailing now allows its customers to choose the right event out of a wide range – no matter whether for team-building workshops, team events, special private trips or events in small groups.

Upwind Sailing’s flagship is the historic sailing yacht Skylla originally built in the 1970ies and since then restored over and over again to ensure technical up-to-dateness. Skylla is a masterpiece, not only from a visual point of view. It is also an outstanding experience being able to sail with such a beauty and to see the result of back then state-of-the-art boat-building techniques and technologies. Nonetheless, Upwind Sailing owns several boats and has a whole fleet of partner boats at its disposal.

## ABOUT ANDREAS RIESER

Born in summer 1984, Andreas Rieser underwent a professional career providing him with insights into different areas from banking to engineering, management and others.

But his big passion has always been sailing and being on the water. In 2013, he thus decided to start his own business and to professionally dedicate himself to his main passion.

Since then he has delighted a lot of customers providing them with the possibility to experience unique moments on the water or at related events – no matter whether

with his event company Upwind Sailing ([www.upwind-sailing.ch](http://www.upwind-sailing.ch)) or by means of his motorboat school Aloha Bootsschule ([www.aloha-bootsschule.ch](http://www.aloha-bootsschule.ch)).

You could be the next one!
